

The Original American Touring Company of "Superstar" will be here on March 5. Tickets are now on sale in the office of the Campus Programming Board.

IFC Publishes Opinion Poll; Indicates Fair Current Attitudes

Our first public opinion poll was executed on an experimental basis to test the response and interest of a segment of the student body. As can be seen the results were attained from a small cross section; however, we still feel it was a pretty fair indication of current attitudes. The purpose of the poll was to find out the interest and knowledge of those students eighteen to twenty-one years of age who will vote for the first time in the upcoming election. In the future, our polls concerning any controversial issue will encompass a much larger range. A small summary relating what the statistics reveal will be included after each poll.

2. Decrease-63
3. No change-17
4. No opinion--11

This first poll seems to indicate some very interesting statistics concerning the age group that has recently received the right to vote. It's evident that the interest and intentions are relatively high; however, it is depressing that over 50% of those questioned could not name at least half of the democratic candidates campaigning quite vigorously for the Presidential election.

Our Russian friends might be overjoyed with the attitude towards the finances of National Defense, especially in light of Pres-

Two Publications Recognize Jenkins

Dr. Marie Jenkins, a biologist and research specialist currently working in the reproductive activity and aging in the planarian flatworm, has been selected for inclusion in two scholarly biographical publications.

She was selected for this tribute by "Two Thousand Women of Achievement," an international publication which honors professional women, and by "Contemporary Authors," a guide to current authors and their works.

Dr. Jenkins is a member of the biology department at Madison College. Her publications include "Moon Jelly Swims Through the Sea," and "Animals Without Parents."

She was a contributor to "Chemistry of Learning," and a symposium edition of "Turbellarians."

Literary works currently in progress include a book on mollusks and her compiled research papers on the planarian. She also

writes a column called "Kennel Corner" under the pen name of W. S. Markins and is an editorial staff member of the "Journal of Biological Psychology."

The Madison professor's biography also appears in "Who's Who of American Women," "American Men of Science," and "Who's Who in the South and Southwest." She received her doctorate from the University of Oklahoma and has been given research grants for Oklahoma University, the National Institute of Health, the Virginia Academy of Science as well as Madison College.

Dr. Jenkins is a member of American Society of Zoologists, American Association for the Advancement of Science, American Microscopic Society, Virginia Academy of Science; Sigma Xi, an honorary science society, and Phi Sigma, an honorary biology society.

(continued next week)

Faculty Receive Retroactive Pay

Faculty members at Madison College will receive over \$25,000 in retroactive pay increases frozen during the period of August 14 - November 14. The necessary forms for the staff have already been submitted to the Division of Personnel in Richmond for approval, according to Mr. Adolph Phillips, Business Manager at the college.

"We believe that the State Division of Personnel will clear all the paper work in time for lump sum payment to be made March first.

Approximately 195 members of the faculty were affected, Phillips added. The retroactive pay measure is the result of recent Federal legislation, according to a memorandum the college received from State Director of Personnel, John Garber.

The Nitty Gritty Dirt Band was here on Thursday, Feb. 10, and played for a near-capacity crowd. The performance lasted for an hour and forty minutes which included 2 encores. (Photo by John Cooper)

SGA Candidates State Platforms

In order to serve the Madison student body more effectively, we feel it important the platforms of the candidates for president of the SGA and Honor Council be called to your attention. Support and vote for your choice candidate!

by Lorne Gurne

The position of SGA President is one which demands a great deal from a student. The willingness to work long hours in the office, committees, and with administration officials. Also it requires the ability to see further than the point of one's nose. Idealism can help shape our programs, but only a realistic approach to those centers of powers can accomplish anything. We must not play the adversary role in our relations with the college or community. The concept of "partnership" is one which must be applied in our approach and can bring results.

Madison is growing. As it grows it requires new precedents in rules, organization, and academics. I would like to be an active student representative in these changes, with your communications to me as guidelines and support.

A new teacher-evaluation committee is in the process of development, and it can and will affect teacher tenure. Rules are being changed as our interaction with the college grows. There will be a new policy on curfew and alcohol if we can maintain maturity in approach and purpose. Reorganization of the SGA is paramount if we are to proceed with a firmer grasp of issues. Communication between all areas of the college is extremely lacking because individuals and organizations who show concern for the school have made efforts to isolate their activities from the student voice.

Any political promises I would make will also be personal promises. The main emphasis I stress now is my sincerity and concern for a productive Student Government. I pledge my time and energies to success of the students.

The following is a point-platform that I offer to you. But any platform is useless unless organizations and individuals at this school can bring a coalition of ideas and purpose.

I. SGA Reorganization

A. Poll Committee: To act as a clearinghouse for all questionnaires to students and officials. This increases communication between all of us. We (SGA) are forced to know the issues.

B. Research Committee: To "Brainstorm" in areas of academics and social life. To gather supporting evidence (papers, petitions, etc.) in conjunction with student demands. To obtain legal service if necessary.

C. A newsletter to all students each month explaining those resolutions that were offered to the SGA. So you can become aware of the specific efforts the SGA makes.

D. Constitutional amendments re. representation, elections, etc.

II. Academic

A. Implementation of a students' teacher-evaluation. To press for change of tenure.

B. Firmer guidelines on value of finals for required courses.

III. Social

A. Actively press for rule changes, with the use of arguments backed by evidence and support. Make sure that all new rule changes are relevant, and in the best interest of the students.

B. Use student funds to subsidize Dorm Activities. Get more of the students' money back to them.

***Other issues of extreme importance:

I. Bluestone* -- A good yearbook is a sign of effective organization, and student interest on campus.

II. Breeze -- Make the news relevant to us. Research possibilities of new deadlines, and new publishers.

III. Bulletin-Boards -- Have a board for "Rides" only, "Classified" only, and "Activities" only.

4. Publications Board: An autonomous unit charged with the responsibility to select the most capable staff for student publications.

5. Off-Campus housing: Through positive involvement with the community we can induce their cooperation. At present they can stiffly progress by not rezoning. They are afraid of us; yet, there is no cause for fear.

6. Political Activity: The type of student activity that does not mean bombings. We can work to achieve the vote in the community. Obtain legal service in our fight against disenfranchisement.

by Kevin Hoschar

After a year of working for students' rights and ideas as Judicial Vice-President, I, KEVIN HOSCHAR, now face an election. There are many things I have learned this past year that will enable me to be a capable PRESIDENT OF SGA. Below are a few of the points upon which my campaign is

based:

REPRESENTATION and INVOLVEMENT--In order to make effective change, we need open, honest, and working student leaders. I am willing to represent to the administration and other authorities any student idea -- conservative, liberal, or radical--and to work to achieve its ends. To make sure students are listened to, we need a more effective student government. I support the newly proposed constitution because it provides for better representation, places emphasis on student involvement, and limits the powers of student leaders. Together we can raise the level of involvement on this campus from less than 5 percent to at least 50 percent.

COMMUNICATION --During the past term, I have gotten to know the workings of the administration, the faculty, and the students. The administration is willing to promote change, if we are willing to work with them. My record is open to review and proves my desire to represent your ideas. It is a record of active service for students and I am willing to answer questions about it and about my future plans.

Let us work together to effect constructive change that will further us as individuals and advance our ideas as students, both in academic and social spheres at Madison.

by Fred Naehrer

PLATFORM: My main objective is to try in every way possible to remove the anxiety that hangs over the heads of most of the students on this campus. Anxiety brought on by hassles, inconveniences and rarely, but still existing, boredom. The removal of anxiety can be brought on by making services more convenient and readily available to the students. The following is basically what I want to do to accomplish my main objective with the ten point platform which can be easily extended to

FRANKLY SPEAKING

by Phil Frank

© FRANKLY SPEAKING / BOX 1523 / E. LANSING, MICH.

a hundred point platform, depending on student requests:

1. To strengthen the Dining Hall Advisory Committee and extend its activity to include looking for better ways for the student to get through lines faster and to push for the existing possibilities of continuous meals.

2. To change the Inter-Dormitory Councils duties to deal with not only the problems common to dormitory groups, but to propose rules to make dorm rules consistent for the men and women. To give this council the push needed for alcohol beverage reforms, in the dorms.

3. To push for a better registration system in which the student can get in and out of registration quickly. A new registration system is being developed now, but probably will not go into effect until next year. I want to suspend Fall registration till next year, so that a new system can take its place. This will also eliminate quite a few add-drop slips. I would also like to eliminate the need for the Student Advisors required signature on everything.

4. To direct student demands for a better infirmary system to the employees who run the infirmary. I would like to see the infirmary be a more concerned and reliable service.

5. To put pressure on

the Honor Council so as to remove its brand as a farce. This can be done by limiting its function to deal with interpersonal stealing only and to leave lying and cheating up to the people directly involved, except when intervention is requested by both parties.

6. To strengthen the recreation council and to try to make funds more readily available to new groups. To extend the duties of this council to include the underprivileged in the community. I would like to join forces with VPI and assist them in their Appalachian Project. Also, to try to have elections to the Campus Program Board so as to get students involved with voting for the issuance of funds.

7. To request for changes in fire safety rules, especially in Eagle and Shorts dorms so as to further promote the safety of the students. To push for the installation of battery operated safety lights in the stairwells for the purpose of power failures.

8. To reestablish Action Line Boxes and to publish the desires and thoughts of the students who make use of the communication system.

9. To propose and personally program and supervise a free computer dating service and to arrange activities to match interests recognized by application. This I hope, will make weekends here more interesting and populated!

10. To encourage student participation in making this campus a safer place to live on. This will be in accordance with the increasing problem of rapes on campus. Also to make the student snack-bar available for MADISON students and guests only. The high schoolers are getting too roudy up there. Under this category I would

Continued - CANDIDATES FOR SGA

ask for a better student-campus police relationship so that this campus will be a less ticket-ridden area. I would start by asking the cooperation and understanding of the officers now on campus.

It must be recognized and known to the students that I am a transfer student from Valley Forge Military Junior College, Pa. I have not served with the Madison College SGA or organizations. However, I am a graduate from Army ROTC and other inter-related programs in which I obtained valuable experience in administration. I have had considerable success in handling red tape situations with the Army Administration at Ft. Benning, Ga., and Indiantown Gap Military Reservation in Pa. These red tape situations were similar to the demands of students on this campus. I want to emphasize that in keeping my eyes and ears open to the activities on this campus and others and my philosophy derived from these experiences, that I feel that I can get my basic ten point platform through the red tape and that I feel highly qualified for the Presidency of the SGA.

Please do not hesitate to call me for further explanation of my platform. I plan to circulate flyers and arrange for discussions later this week. My phone number: Fred -5871, Eagle D829.

As a candidate for the Presidency of the SGA, I would like to take this space to make an announcement concerning my qualifications as President. I have come under fire from various sources saying that my inexperience as a non-member of the old SGA and organizations make my qualifications inadequate. I want to say that my philosophy represents a new type of SGA, a SGA that will be active and responsive. I do not represent any part of the old SGA and I feel that just because I am a transfer student of the Class of 1973, with new ideas on how to get things done, does not brand me or anyone else as inadequate.

I want to emphasize that I am a representative for a new SGA. A new person, with fresh and workable ideas.

by K. A. Uhler

I will work hard to:

- 1) rid Madison of all the unequal, unjust, illegal rules that apply to women and not men.
- 2) make Madison a better place to stay at for a weekend: i.e. have more and better quality entertainment such as concerts, mixers, parties, etc.
- 3) encourage a more natural and humane "open

- dorms" policy
- 4) involve more students in more of the campus affairs i.e. encouraging more people to run for offices such as this one, have more participation by and for students.
- 5) make the SGA more of an organization and tool of the students wishes and not just of a select clique
- 6) encourage intellectual pursuits at Madison; for those students that are truly interested in such.

Hear a live debate between SGA Presidential Nominees on WMRA, Madison Radio, 8:30-10 p.m., Sunday, Feb. 20.

****MENU SUBJECT TO CHANGE WITHOUT NOTICE

Platforms Reveal Honor Council Candidates

by Jon Irby

Honor Council is supposed to be for the student. Having served as a member of this organization for two years, I have gained a true insight into the inner workings of this body. The majority of the members of Council are concerned and have been working toward the goal of revising our present constitution. I am against any modification of our present out-moded system. Instead, I believe that the only way to change a system like this one is by total change. If elected this is my goal. Listed below are some of

the suggestions I would make for the entire student body to review and decide upon. In order for you to understand the implications of my suggested changes I feel it would be advantageous for you to re-examine the present system indicated in the 1971-72 SGA Student Handbook on page 63.

I. The Present System should be changed to an Honor Court System where there would be a computerized randomly selected jury from the student body for each eight weeks. The selected students would be interviewed by the Court before each case. A student will be disqualified from duty if he knows anyone or anything directly involved with the case. This jury will consist of no more than 12 members. The scope of this court system would include all cases involving lying, cheating, and stealing.

II. There would be designated members of the court to serve as impartial advisors to the accused and accuser. Both the accused and accuser will select a member of the student body to represent them as the defense and prosecution. These students will speak in behalf of the accused and accuser during the trial.

III. Within 48 hours of the accusation an investigation will begin. There will be 4 members of the court serving as investigators. Two will impartially investigate for the defense and two for the prosecution. Investigations will take no less than three days and no more than one week. The trial will take place 48 hours after the completion of the investigation. These time elements can be changed by the President.

IV. The accused will have an open trial unless he requests otherwise at the first of the investigations. Designated open trials will be announced to the student body no later than 48 hours before the trial. Any open trial will be open to the entire population of Madison College. The number of people will be limited to available space. The President has the right to refuse admittance to anyone upon the request of defense or of the prosecution. He can also clear an unruly courtroom.

V. It will be the responsibility of the members of this court to assume the integrity of all students. It will be the court's responsibility to orient with all new students to Madison College on this system. This would eliminate the unnecessary Honor Council Test. This Court would not accept a plea of ignorance after orientation is

completed. It will be the responsibility of a hired secretary for this court to keep a record of all proceedings of each case in a formal transcript. This secretary will also report all decisions of the organization to the student body; however, this report will relate to proceedings from designated open trials. Closed trials will be held in total secrecy.

VI. All appeals will be handled by the College Judicial Council.

It is up to you. If you are interested in change and helping to make this change a reality then I ask for your support both now and after this election.

by Fran Premaza

In declaring myself a candidate for the presidency of the Honor Council, I am declaring myself a candidate for representation of the student body. The Honor Council is an organization for the students, operated by them, and responsive to them. It is vital that the student body take a part in seeing that this organization lives up to their desires. This past year we have tried to meet the students and hear their demands by having classroom visitations at the invitation of many professors. Though we met and heard many students, we were unable to contact all of them. In declaring myself a candidate, I desire to bring the Honor Council and the student body more in contact with one another.

Also this year Council organized coffee hours for the students during exams. The aim of this project was to introduce the Honor Council as an organization which does more than hear trials and such. Councils is a link with the students to promote honor and encourage respect for the Honor System on campus. I desire to see more activities based on this aim organized for the students.

Finally, I want the Honor System and Council to express the desires of the students. This past year we have been revising the constitution in order that it may meet more of the students' demands. We hope that these revisions will make the students more satisfied with Council. My hopes are that the system will continue to live up to the students desires by listening to them and trying to incorporate what it is they want. The Honor System is only as strong as the support of the students. I want to hear them so we will have that support.

The Senior Capping Exercises scheduled for February 8, 1972, will be postponed. The new date will be announced shortly.

The largest gathering of fraternity men in the history of Madison College occurred at the IFC banquet. Besides listening to several speakers, the group witnessed a karate demonstration. (Photo by John Cooper)

Interfraternity Council News

180 Men Attend IFC Banquet

The largest gathering of fraternity men in the history of Madison College occurred February 9 when the Interfraternity Council sponsored a banquet at The In where 180 persons enjoyed spaghetti and beer.

There was an overwhelming response from the Greeks and three frats, TEX, AXP, and Theta Chi, had perfect attendance while SPE and TKE each had but one member absent.

Guests included Dr. Ronald E. Carrier, Dean Henry Bowers, Dean James Fox, Monica Albertolli, president of Panhellenic, alumni, as well as advisors to the fraternities.

Individually, each fraternity is no larger than any other organization on campus. However, united through the leadership of IFC, they are the largest organization of men on the Madison College campus, sponsoring activities, social events, and services.

Dean Bowers, the faculty adviser for IFC, was the first speaker of the evening. He congratulated Jamie MacVicar on his efforts as the new IFC President and noted how impressed he was with the capacity crowd. Dean Bowers conveyed his hopes for a successful rush period and remarked on the enthusiasm of all Greeks present to continue their efforts for cooperation.

President Carrier, a fraternity man himself, received a warm welcome from the audience. He assured the men of the administration's continued support to the fraternity system because it adds "dimension" to campus life.

President Carrier quoted an array of facts which indicated the rapid growth of fraternities on the Madison campus. He advised the fraternities on the Madison campus. He advised the fraternities to continue to build firm foundations while maintaining the ideal of "castles in the sky."

In regard to this, Dr. Carrier challenged the fraternities to work toward Tekes are to meet at the TKE house at 11:30 a.m. He also stressed the importance of not only the

administration and the fraternities as well.

After President Carrier's speech, Jamie MacVicar was introduced by Master of Ceremonies Rick Cook as the new Interfraternity Council President. Jamie conveyed warm thanks to Martin Palmer, owner of The In, and Bob Shugar, manager, for their cooperation in providing the dinner, beer, and service at cost price to IFC. MacVicar, then, introduced Marcie Guzzetta as the first IFC sweetheart who will represent the entire fraternity system in coordination with the individual fraternity sweethearts. Emphasizing that IFC is the largest male organization on campus, MacVicar proceeded to outline for the Greeks his ambitious plans for the future of IFC. His plans revealed the many service activities and events to take place in the near future.

The speakers were followed by dinner and beer, and a beer chugging contest won by Tom Andros of TKE. A unique and certainly thrilling display of entertainment was provided by the Shenandoah Valley Karate Club with black belt, second degree instructor Don Riddle, brown belt Rick Layman, and green belt Jane Balser. They put on excellent demonstrations of a free sparring match, karate techniques, and the breaking of pine boards and cinderblocks. The men all thoroughly enjoyed themselves throughout the dinner which ended with the announcement of a free keg of beer to the fraternity with the best percentage of attendance. To break a three-way tie between the fraternities with 100% attendance, Marcie Guzzetta drew names from a cup. AXP won.

The success of the dinner marked by the leadership of IFC and the enthusiasm of all present was an excellent indicator that Wednesday night was a stepping stone to what would be the first of many more successful IFC functions.

ANNOUNCEMENT

Mr. Jon McIntire of the Madison College Counseling Center recently attended an intensive seminar on the draft. If you have any questions regarding the current or proposed draft laws or your status within the draft system, please contact him at 433-6205 or come by the Counseling Center in Alumnae Hall.

Social Gazette: Frats Plan Many Activities

In order to eliminate any misconceptions as to what the fraternities on Madison Campus actually provide, IFC has created this article to inform all students of the current activities and events sponsored by the Greek system. In order to inform you of this, it will include such activities as fraternity smokers, parties, dances, movies, and any other social activities, whether they are opened or closed. If you have any questions or comments please contact Social Editor Marcia Guzzetta c/o IFC Post Office Box # 4138. She will be more than happy to answer any questions concerning the Greek system, or print any material, pro or con, concerning our efforts.

ALPHA PHI OMEGA

The brothers of Alpha Phi Omega held a rush party on February 12, at 8 p.m., at the Bridgewater V.F.W. A keg was provided. A formal smoker was held in Eagle recreation room, Thursday, February 17, at 7:30 p.m. After these activities will

come a final rush party at PHI KAPPA BETA

the Harrisonburg Moose Lodge on Friday, February 19, from 8:00 p.m. till? This party is B.Y.O.B.

In its attempt to better serve the Madison College students, Alpha Phi Omega has initiated more service projects directly aimed at coping with some of the fundamental problems every student will at some time encounter. APO is in the process of initiating a new system of matching students needing rides with those who need riders. Also, APO is in the process of providing the students a service which will pick up those waiting at the local bus station for a ride to the Madison College campus.

Presently, an APO "hotline" is in the process of being installed, and this phone number will be publicized thoroughly in the hopes that any student having any service project idea will contact APO.

Also, this semester APO plans to donate five hundred hours of service to those projects designed to help those in need.

PKB sponsored a beer blast February 12, by invitation only, to those that attended the first Informal Smoker.

On Monday, February 14, PKB held its second smoker in Eagle recreation room from 6:00-8:30 p.m., where each of the officers gave speeches pertaining to the brotherhood and fraternity life.

The 18th of February, PKB held another beer blast, by invitation only for prospective pledges.

On Wednesday, their formal smoker will be held and bids will be sent out on February 24.

TAU KAPPA EPSILON

TKE will sponsor a rush party on February 18, at the Teke House at 9 p.m. by invitation only. Each rusher must bring 1/5 of light liquor and the House drink will be a Hairy Buffalo.

On February 19, Madison's Tekes are going to UVA to visit their chapter for a competitive football game, cocktail hour, and a party after the UVA-Duke basketball game. All fraternities to work toward Tekes are to meet at the TKE house at 11:30 a.m.

APO Joins IFC; PKB, ΘX Go National

APO JOINS IFC

On February 1, Chi Gamma, the Madison College chapter of Alpha Phi Omega National Service Fraternity formally became a member of the interfraternity Council operating on Madison College campus.

Alpha Phi Omega is now a voting member in IFC along with the other five Greek fraternities on campus and plans to cooperate whole-heartedly with the Interfraternity Council in its activities which are designed to enhance the student's social life on campus and to provide critically needed service projects for the college and the surrounding community. Alpha Phi Omega is presently participating in IFC on a semester trial basis in order to verify the belief that the results from this new membership will be an advancement of the ideals held by both Alpha Phi Omega and the Interfraternity Council.

Being the official host of Madison College, Alpha Phi Omega has strived to provide valuable service projects for the Madison College campus and the surrounding communities. Some of these projects include social work at area hospitals, voluntary work with the Saturday Adoption program, student tours for interested students applying to Madison College for admission, a student book-life and many other valuable projects.

Alpha Phi Omega decided to petition for admission into IFC in hopes of becoming an active member so that they could carry out future service

and social projects on a broader scale. In the past Alpha Phi Omega has even more involved in campus activities. The past semester saw the frat co-sponsor a Christmas Party for underprivileged children with Phi Mu, sponsor a mixer featuring a popular band from Connecticut, hold numerous frat parties, and actively participate in the intermural program. This semester the brothers have not only become affiliated with AXP, but they have purchased a fraternity house on Route 33 as well. The new house comes equipped with a party room featuring a large fireplace and bar. (You can bet they won't be neglected!) In addition, there is ample room outside for barbecues and beer blasts. We even plan to build a small basketball court in the back yard.

Alpha Phi Omega expresses great enthusiasm in becoming an active member of IFC and plans to make the college and the community the direct beneficiaries of this new event.

PHI KAPPA BETA GOES NATIONAL

Madison College has a new fraternity on campus! After considerable effort the brothers of Phi Kappa Beta have recently been granted colony affiliation with the national fraternity of Alpha Chi Rho.

Phi Kappa Beta was first established at Frederick College in 1961. The fraternity relocated on the Madison campus in 1968 after the state legislature voted to establish Frederick College as a two-year institution and forced eight members to seek admission on campus. In 1969 the fraternity was granted its charter and held the first of the once famous "Hayloft Parties." The fraternity continued to contribute to the social atmosphere of the campus, sponsoring numerous beer blasts, mixers and open parties.

Marcie Guzzetta, the new IFC Sweetheart.

Guzzetta Selected 1st IFC Sweetheart

Marcie Guzzetta was elected the first Interfraternity Council sweetheart on February 2, 1972. She was introduced to over 180 fraternity men at the large banquet on February 9.

Marcie has been a world traveler visiting such far away places as Hong Kong, Hawaii, and the Philippine Islands. Among her many activities, she snow skis, plays tennis, and works as a model.

This is Marcie's first year at Madison College. She is a Spanish major and expresses desires to work with the Foreign Social Services.

She has already begun devoting much of her time and efforts as a representative of the entire fraternity system. Our congratulations to Marcie on her election, and it's quite evident that the IFC has made an excellent choice.

Recent events indicate the fraternity will become even more involved in campus activities. The past semester saw the frat co-sponsor a Christmas Party for underprivileged children with Phi Mu, sponsor a mixer featuring a popular band from Connecticut, hold numerous frat parties, and actively participate in the intermural program.

This semester the brothers have not only become affiliated with AXP, but they have purchased a fraternity house on Route 33 as well. The new house comes equipped with a party room featuring a large fireplace and bar. (You can bet they won't be neglected!) In addition, there is ample room outside for barbecues and beer blasts. We even plan to build a small basketball court in the back yard.

Many of these things could not have been accomplished with apathetic members content merely with having fun. The brothers have continuously involved themselves in working for the betterment of the fraternity and college alike. Many members are

men at Frederick College in 1964, Alpha Chapter of Phi Alpha Pi was established. These men had a dream of establishing their ideals of brotherhood on a national level. In 1968 Frederick College closed its doors, and a group of Phi Alpha Pi's migrated to Madison to establish the Beta Chapter. These men still shared the ideals of brotherhood and the dream of national status. 1969 found the Beta Chapter one step closer to their goal. They became Theta Chi Colony. Last week their dream was achieved, for Theta Chi Colony is now a National Chapter of Theta Chi.

Nationally, Theta Chi was established in 1856, at Norwich University, Norwich, Vermont. Today Theta Chi has 144 active chapters with 66,081 brothers.

Theta Chi Fraternity of Madison is 45 strong with brothers in every aspect of social and academic life. All the brothers deserve congratulations on their efforts which led to National status.

Shepherd Stops Dukes

Five Dukes hit the double figure column, but it wasn't enough for the Dukes to overcome the Shepherd homecourt advantage as Madison lost to the Rams, 90-77, in Shepherdstown, W. Va.

The Dukes were down by only seven points with 5:24 left in the game, but could not hold off a late Ram spurt. Down by 12 (51-39) at halftime, the Dukes kept within striking distance until the Shepherd rally.

Tim Meyers and Roger Cooper led the Dukes with 16 and 14 points respectively. Gary Butler, Lenny Mosser and George Toliver chipped in 13 apiece.

Butler led the team in rebounding with 10 and Meyers pulled down eight.

Pingpong tournament games have now begun. The winners of the first and second round playoffs will compete in the game room of the Student Center. Third round playoffs will be held on February 22. Semi-final playoff games will be held on February 29, and the championship match is scheduled for March 2. Competition is stiff this year with Steve Misenheimer, last year's champion, Forrest Dull, Jim Schultz, and Greg Knupp heading the long list of participants.

- The Grandstander -

by John Hulver

Central Virginia may be on the way toward becoming a power in southern basketball, with Virginia and Madison setting new team records with each game they win for the rest of the season. The Dukes old mark of 12 wins, was past last Saturday when they rolled over D.C. Teachers, 113-85. U. Va. looks like a sure bet to win 20 games this year, a feat the Cavaliers have never accomplished before. If Barry Parkhill can capture the ACC scoring title, he could be the first junior to make All-American since Frank Loria of Va. Tech made All-American safety two years in a row.

Al Mayer, the Dukes All-American goalie was recognized in this week's Sports Illustrated, "Faces in the Crowd" section. The success of the Dukes' soccer team may put Madison College on the map yet.

Popular belief holds Milwaukee as the team of the future in the NBA, but a group of youngsters playing under the old banners in Boston Garden knocked off the high flying Los Angeles Lakers last Friday by a 13 point margin. The well-balanced Celtics laid their nine game winning streak on the line against the mighty Bucks, and almost pulled it out before falling short, 117-109. A cold third quarter and 51 points by Kareem Jabbar choked off the Celtic rally. As the playoffs draw near, Boston could prove to be a huge dark horse in the path of Milwaukee and Los Angeles.

Joe Frye goes up for a turnaround jumper against Christopher-Newport as Tim Meyers heads for the boards and Lenny Mosser looks on. (Photo by Dr. Cary Henderson)

H-S Nips Dukes in Overtime; Toliver Scores 31 in Loss

After winning the first overtime game with Hampden-Sydney this year, the Dukes dropped an 81-75 thriller to the Tigers Monday night at Hampden-Sydney.

Tim Meyers grabbed the ball off George Toliver's missed shot and scored, to tie the game at

71-71, as the regular period ended. But in the overtime period the Dukes were outscored 10-4, after holding a halftime lead of 39-33.

Toliver kept the Dukes in the game with 31 points on 9 field goals and 13-17 foul shots. Gary Butler and Meyers chipped in 10 points each as the Dukes could put only three men in double figures.

Geoff Burness and Dennis Munko scored 21 and 20 points respectively for the Tigers. Munko had the hot hand in the overtime period, the same way Meyers did for the Dukes in the first game.

The Dukes play host to Southeastern tomorrow at 2:15 p.m. in Harrisonburg High. Results of the Federal City game played Wednesday will appear in the next issue of the Breeze.

Dukes Roll By D.C. Teachers, 113-85; Cooper Bangs for 30

Madison's Dukes romped past D. C. Teachers, 113-85 Saturday night, winning their seventh straight home court victory. The contest marked the fourth time this season and the second game in a week in which the Dukes have scored more than a hundred points.

One of the contributing factors to Madison's win was a balanced scoring effort, particularly in the crucial first half. The Dukes placed four men in double figures in the game. Roger Cooper led the Dukes

in the scoring column with 30 points on 12 field goals and 6-6 from the line. George Toliver contributed 23 points on ten baskets and 3-3 free throws. Tim Meyers and Gary Butler chipped in with 19 and 13 points, respectively.

Butler pulled down 14 rebounds and Cooper grabbed 10, as the Dukes and the Cougars were tied with 35 rebounds each. The Dukes 58 per cent from the field enabled them to roll up the huge score, as they held the Cougars to 35 or 85 shots for 41 per cent.

D. C. Teachers was led by sophomore Walter Robinson's 34 points. The only other player for the Cougars to reach double figures was Steve Foster, who netted 22.

The Dukes and Cougars played on even terms throughout most of the initial half, and Madison was able to pull away only during the final five minutes of play before halftime. Toliver and Cooper took advantage of three straight Cougar turnovers, connecting on short jumpers and layups to give Madison a 52-36 halftime lead.

D. C. Teachers was able to connect on only two baskets in the first four minutes of the second half while Madison built up a 64-43 pad and coasted the rest of the way to its thirteenth win against five losses.

D. C. Teachers fell to 9-12 on the season.

Swimmers Rout R-M

Madison's women's swim team routed Randolph-Macon, 73-36, in their first meet of the season. Three girls tied for high scorer for Madison. Ellen Meadows, Mary Jane Szymanski, and Marlene Langdale produced fifteen points each. Chris Mullen, Diane Alley and Katie McGiffert also scored for the Duchesses.

The swim team, who call themselves the "zoo," pursued an all-out effort as they took first place in ten of twelve events. They are coached by Mrs. Martha O'Donnell with Captain Virginia Axtell and Co-captain Mary Jane Szymanski.

The next home meet will be Feb. 19, against East Carolina at 3 p.m. in Keezel.

Announcement

Please Note the Following Information Regarding the Use of All General Purpose Bulletin Boards on Campus.

- 1-General Purpose bulletin boards may be used for the posting of announcements of coming events, organizational meetings and for the posting of personal notices of items for sale, rides wanted, etc.
- 2-Personal notices or announcements to be posted on these bulletin boards

will be typed or neatly printed on a 3x5 card to maintain the appearance of the board and to provide space for the maximum number of notices. 3-Prior to posting materials on general purpose bulletin boards, the material must be stamped at the Campus Center Student Activity office to insure the systematic removal of outdated material and to provide space for new material.

Dr. Riggs Named Planning Director

Dr. Robert O. Riggs has been named Director of Institutional Planning at Madison College. The Institutional Planning Office, a recently created administrative office at the college, is an effort to insure the efficient handling of resources, according to Dr. Carrier. "Dr. Riggs is a specialist in his field and will be given the responsibility for assisting various agency heads in preparing budgets by providing information on cost

and production."

The Director is a presidential advisor on matters related to institutional research, budgetary planning, management and systems development and operation. He is also responsible for the identification of areas of needed research.

Dr. Riggs is the first appointment to the office effective the week of January 17. He is currently serving as Director of Budget and Planning at Memphis State University (Tenn.) His prior assignment was as Director of Educational Development and Research and Assistant to the Chancellor at the University of Tennessee at Martin (Tenn.). His publications have appeared in "The Educational Catalyst," and "Contemporary Education." Two articles are scheduled for publication in early 1972 in scholarly journals, according to Dr. Riggs. His undergraduate work was done at Vanderbilt University and his graduate work at Memphis State University. He is a member of Phi Delta Kappa, Kappa Delta Pi, The Association for Institutional Research, and the American Association for Higher Education.

Dr. Riggs is 29, married and has a 14-month-old son.

Continued from page 5

TKE LEADERSHIP COALITION FORMED

TKE fraternity has been operating their fraternity under the theory of collective leadership. They have taken the duties of the office of President and divided them among four men. The four men of the collective leadership are Dennis Pluchinsky (administration), Greg Javornisky (administration), Rick Cook (Campus, IFC, and Community relations), and Austin Pacher (finances and fund-raising). In this way these men will be able to concentrate more effectively on any problem in their respective area since they have only one area to supervise instead of the whole fraternity. This form of leadership also brings more people into the process of decision making. While previously there were 7 officers, there are now 10. It also gives these men more time for their studies and other interests. The main tenet behind this form of leadership is that now the office of the President draws upon the strengths and qualities of four men instead of one.

ident Nixon's efforts to increase the defense budget. Foreign Aid and Welfare statistics show somewhat expected results.

We would appreciate all suggestions concerning any controversial issues and would be glad to conduct a survey on a much larger scale.

THE IN

163 south main street harrisonburg, virginia 22801
703 433-1144

Dear Madison Students:

We are having a contest. You "name the room." Only Madison students can enter.

We are making some drastic changes in The In. Monday through Thursday we will divide our existing restaurant into two completely separate rooms with two completely different atmospheres. Both rooms will have new bars.

The room with the low ceiling is the one to be named. Our objective is to create a place (bar) off campus for you to crash. The first week after our alterations are completed the room will be open only to you.

Come in and see the diagram of the changes. While you are IN, try our pizza and submarine sandwiches. Look things over and drop your entries with your name and phone number in the "Name this Room" box.

The student who submits the winner will receive a new . . .

One-hundred dollar bill (\$100)

Each student is limited to 3 entries.

Sincerely,

THE IN, INC.

P.S. In case of a tie the prize will be divided among the winners. All entries become the property of THE IN, INC.
